Comments	I highly recommend. He fixed the roof rather than suggesting replacement as Hinckley Roofing wanted to do. Mike said her 40 yr roof did not need replacement.

I can't imagine using anyone else for a roofing job. Dave and his son were meticulous, friendly, good-natured, very fair-priced, and extremely detail-oriented. They are perfectionists and make sure everything is done right the first time. We had used them once before to do some patches and they did an excellent job but we knew our 20+-year-old house eventually would need a new roof. They returned to reroof our home this summer and replaced 2 skylights with venting/shaded roof windows. There was absolutely no mess. They cleaned up every day and ran a magnet to check for any loose nails. We had just had a new deck put on our house in the spring and were concerned about damage. We were worried for nothing. They went the extra mile and hand-carried all debris away from the deck. What little dust that fell landed on the tarps that they used to cover the deck. Their price was actually half the price of what 2 other companies had quoted us and I'm sure that the other companies wouldn't have been so careful and customer friendly.
